Rally to stop the Tier II

Two tier isn't about saving money, it's about destroying unionism.

If every GM-UAW member gave up 25 cents an hour, it would save the company more than the \$112 per car that manufacturing consultant Ron Harbour estimates the new concessions at Lake Orion will generate.

**But solidarity is not the goal. Saving jobs is not the goal.
Setting a precedent to divide union members is the goal.**

**Two tier is discrimination against an entire class of people: young people.
Two tier is class warfare on a new level.
Two tier redlines an entire generation regardless of race, gender, or creed.
Two tier condemns an entire generation of workers to poverty and**

**sets up the victims to despise the union members who
by vote or by negligence
deprived them of a chance to live in dignity.**

Turn your back on this struggle at your own peril.
