PLEASE CIRCULATE THIS MESSAGE WIDELY

Do not get discouraged by the Yes votes announced!

People who want to vote down this contract should not get discouraged by the Yes votes announced yesterday from Ohio and Wayne. The UAW always schedules votes first at the plants where they think they can get a Yes vote. They schedule votes last at plants where they think there will be a No vote, like at Dearborn Truck.

Local 1250 from Brook Park, Ohio consists of 3 small plants, all 3 of them together have only half as many workers as are in Dearborn Truck alone. And they were one of them few places that received any real new product. No surprise they voted Yes.

At Local 900, Wayne Stamping actually voted No, while Wayne Assembly and Michigan Assembly voted Yes. For the whole local the total vote was 925 Yes-to-898 No. That is a Yes vote of less than 51%. Last March, Local 900 voted Yes by 78%.

So I take this vote as a good sign. I think there is a very good chance we can vote down this contract, when all is said and done.
