Donny Jones and Robert's Rules

Hello. Just a quick line. The star printed my edited letter to the editor and the comments are burning up their site.

At today's union meeting, two skilled trades brothers tried to introduce a motion that we have an off-sight (out of the union's control) meeting and that the Int'l come back to re-explain the JD Norman contract and then schedule a ratification vote 10 days later. After the motion was seconded, and before it could be voted on, I moved that the motion be postponed indefinitely which was seconded and carried. What that means is I killed the motion and the only motion that will be carried to the 2:10 and 10:10 meeting will be my motion to indefinitely postpone! That means EVEN if it does not carry the first motion cannot be voted on until NEXT union meeting at the earliest which is way too late to consider!!! The Region is furious!! You can thank me later!

In Solidarity,
Donny Jones
