

This is why I am endorsing Dave Thomas for President of CAW Local 707

Brothers and Sisters:

We, the CAW Local 707, are currently in the process of a run off election for the position of Local 707 President scheduled for June 9, 2010. For nearly a decade we have been going backwards, giving concessions which have created economic hardship, worsened working conditions and job losses for us in the auto sector while the company we work for continues to accumulate wealth. We cannot continue to support the incumbent and I urge all members to support Dave Thomas and elect him President on June 9, 2010.

Throughout this recent Executive elections Dave's campaign has focused on the needs and wants of the membership and what a union should be. The current conditions on the shop floor are dismal. The bodies of our brothers and sisters are breaking down. What affects us on the shop floor also affects us in our personal lives. We work more for less and we have members still on layoff. In 2012 the company will try to take more away from us, such as more premium jobs. To turn ourselves around and make improvements is it essential we elect Dave Thomas President of CAW Local 707.

In Solidarity,

Lindsay Hinshelwood
