

How dare they mess with retirees' medical benefits!

Retirees have earned the right to their pension and full medical benefits through 30-plus years of hard years.

Today, however, these medical benefits have been cut and retirees are being threatened with more cuts in the future.

We think the VEBA was a bad idea in the first place because it was not funded with enough money. We believe that our union should be demanding that the company put enough money into the VEBA so that retirees don't have to pay more or have their benefits cuts.

We also think it is wrong that retiree medical benefits can be changed and retirees have no voice in these decisions.

We support a resolution to the UAW Convention that would give retirees the right to vote on any contract that would change their pension and benefit provisions.

We also support a resolution to the UAW Convention that would give retirees and retiree chapters the right to approve any changes in the VEBA before payments could be increased or our benefits could be cut.

We are running for delegate to the UAW Convention from the Dearborn Truck/Assembly Plant. If elected, we pledge to speak on and fight for these issues at the UAW Convention.

Retirees are eligible to vote in this election. We ask for your support and your vote.

**Nick Kottalis -- #52
Plant Chairman**

**Gary Walkowicz -- #42
Bargaining Committeeman**

**Cathy Abney -- #44
District Committee**

**Dewayne Jackson -- #45
District Committee**

Vote April 20 6:00 a.m. to 6:00 p.m. at Local 600
