

INTERNATIONAL PLEA

No Ford workers anywhere in the world can advance further or avoid retreat without uniting across borders. We are determined to stop international whipsawing that pits us against each other in the race to the bottom. We admire CAW members and Ford workers in other nations who are fighting concessions. We are fighting them in Ford US as well. We offer the petition below as one weapon in this fight.

Judy Wraight, UAW Local 600, Ford Rouge and other plants, former Tool & Die Unit Executive Board member

Ron Lare, UAW Local 600, ret., former Local 600-wide Executive Board member

PETITION

Stop international concessions!

We are active and retired Ford workers. We oppose any union concessions or give-backs to Ford. We urge our fellow union members, including our union representatives, in all unions, across all borders, to speak, write and vote against concessions.

Name and union position if any
