Solidarity!

This Union was formed when men and women came together under the harshest of conditions and stated together "ENOUGH IS ENOUGH!" For myself and my brothers and sisters at Local 5960 and all others fearing for their families future, I am echoing their words..."ENOUGH IS ENOUGH!"

This once-great Union has fallen from grace and turned their collective backs on the rank and file that supports their very livelihood! The best committeeman I've ever had was on 3rd shift in the Body Shop at Lake Orion and he once told me that someday we would all finally be fed up with the International selling us down the river and make a stand against them. We would have to remind them who is the actual power behind their thrones.

I hope tomorrow is that day and I know Patrick will be there standing with us smiling at the Unity of the common worker standing together and screaming at the top of our lungs, ENOUGH IS ENOUGH!

I would like to thank all of you out there for supporting us (and yourselves) in the horrible mess the our own Union has put us in! Let's show them what REAL solidarity is all about!

WaitTillTier3!
