

To UAW Local 699: UAW International Reps vote to give themselves a Pay Raise

As you ponder whether or not to vote for another pay-cut contract, consider this: UAW International Reps at the UAW Constitutional Convention just made a motion to give themselves a raise.

The most disastrous era in UAW history transpired on their watch. UAW members all across the country have been forced to take pay cuts, make concessions on benefits, get their noses rubbed in the dirt of the factory floor every day, and UAW International Reps, the very ones who are pushing us to take a pay cut, made a motion to give themselves a raise.

The delegates we elected may be too weak to vote against this raise but we can send a strong message straight to the International UAW by voting NO.

Vote NO: because we deserve a raise too.

Vote NO: because we deserve a raise more than
UAW International Reps.

Vote NO: because our vote on the contract is
the only direct democracy we have.

Vote NO: because we have a contract that the
UAW International is legally responsible to uphold.
