

The members of UAW Local 23 in Indianapolis are standing strong against pressure from the company and the UAW International to break the master agreement and ratify a concession contract. We, the undersigned, are proud of the solidarity shown by our brothers and sisters at UAW Local 23. We too have been pressured to break the master agreement and shatter solidarity. We know what it means to resist concessions. We support all union members who honor solidarity and uphold the integrity of master agreements. **Stay Strong. No Concessions.**
