

# **Stand On Solidarity Rally at UAW Region 3 Saturday**

If UAW Local 23 — GM Indianapolis Stamping — is forced to break the UAW GM master agreement and accept a concession contract it will immediately set up unfair competition between Local 23 and other UAW stamping plants at GM, Ford, and Chrysler.

The Indianapolis GM Stamping Plant has 2.1 million sq. ft. ready to be filled with work outsourced from other UAW plants.

But the damage won't be limited to Metal Fab plants.

The contract at UAW Local 23 will set the standard for all Big 3 negotiations in 2011.

Stand with us in our demand that the UAW International stop pressuring UAW Locals to break master agreements and violate the UAW Constitution by undercutting contracts at other UAW local unions.
