

Thanks for solidarity!

Fri, June 29, 2012 3:36:41 AM

Dear all,

during the international day of action to defend Jobs at Opel/GM and PSA, more and more international solidarity messages arrived and were published to the workers in Bochum and Paris.

In Bochum, Annegret Gärtner-Leymann, member of the works council and of IG Metall, wrote a first answer:

-

"Me and all of us here are overwhelmed by your solidarity!! It is incredibly touching and encouraging that all of you think of us and your wonderful letters and especially the work stoppages. On the contrary, GM won't like this because their calculation to split us failed. This international unity of workers is a trend-setting, stable and inspiring alternative to what capitalism offers to us: Destruction of our lives, our environment and our future. Today we have a protest camp and, starting at 5:30 pm a solidarity celebration at the plant gate. Let me say thank you and embrace you cordially. We will answer more detailed later.

Full success to your struggle which is also ours!
Greeting you in the name of many other colleagues,

Annegret Gärtner-Leymann, member of the works council of Opel Bochum and of IG Metall
