

Urgent Call to Halt Lame Duck Postal Reform

Senator Joe Lieberman is proposing immediate suspension of Saturday letter delivery while maintaining parcel service. This “compromise” would eliminate 25,000 city carrier jobs and drive away business. Stand-alone parcel delivery would not be profitable nor would it in anyway secure the future of the USPS. This proposed “compromise” also makes no mention of repealing the onerous mandate to pre-fund retiree healthcare accounts.

What You Can Do:

Monday 11/19 thru Wednesday 11/21, 9:00 a.m – 6:00 p.m ET

CALL: (202) 224-3121 in DC to be connected with your Senators and/or Congressperson. You can also get their direct contact info from senate.gov and house.gov

Deliver two messages:

- 1) Tell them you oppose **ANY** action on postal reform until next year, a hastily negotiated backroom deal to slash service and destroy jobs at the Postal Service is unacceptable.
- 2) Tell them to oppose any discussion of cuts to federal pensions and health benefits in fiscal cliff negotiations, over the past four years pay cuts and freezes have already been sacrificed by federal workers.

Please share this message with your family and friends. We must all do our part to protect our jobs and the future of USPS.
